People have trusted Pete Olson of PJ Builders to create custom homes since 1997.

"He's a perfectionist," says one couple in Promontory in an online review. "He took a vision for a house and turned it into a home."

Attention to detail, craftsmanship and collaboration are what make a good contractor great. Over 90% percent of their business comes from referrals of satisfied customers.

For the past 20 years Olson has satisfied dozens of homeowners with new construction, and restored life to old historic structures in Park City.

"We have the ability and experience to keep the building's historic aesthetics intact, while blending the structure with modern technologies and amenities," says Pete. "We can get your home ready for the next 100 years."
